

## SUBURBIA SALON + SPA

Think the only spas that offer oodles of pampering treatments and great facials are peppered throughout Hollywood and points farther west? Well, think again — Beverly Hills isn't the only place where women know the secrets of beauty. Just around the corner from CBS Radford Studios (and a hop, skip and a jump over the hill, for you Valley-phobes) is a hip, funky oasis called Suburbia Spa + Salon, where the Valley's women in the know go for quick highlights and a pedicure or a soothing facial from esthetician Erin Cohen — in fact, its cute gift shop is practically worth a trip just for a little shopping. Female executives who just can't escape the office early enough for a 5 p.m. appointment will love late-night Thursdays. The salon keeps its doors open until 9 p.m., while hard-working women (and men — male executives need haircuts, too!) listen to a deejay spinning tunes and enjoy wine and cheese during their beauty treatments.
